Re: Cell Command, Inc. Ex Parte Notice, GN Docket No. 13-111

Dear Ms. Dortch:

On September 6, 2017, John Fischer and Rob Smyjunas of Cell Command, Inc. and William R. Nordwind of this firm had a series of meetings at the Federal Communications Commission (FCC) on topics contained in the docket on Promoting Technological Solutions to Combat Contraband Wireless Device Use in Correctional Facilities.

The first meeting was with Mr. Kevin Holmes, Acting Legal Advisor for Wireless and Public Safety for Commissioner Brendan Carr. The second meeting was with Commissioner Carr and Mr. Holmes. The third meeting was with Mr. Julius Knapp, Chief of the Office of Engineering & Technology (OET); Bruce Romano, Associate Bureau Chief (Legal); Walter Johnston, Chief of the Electromagnetic Compatibility Division; and Jamison Prime, Chief of the Policy and Rules Division.

The topics included in each of the meetings were: (1) the dire need for a technology that is effective and affordable, (2) how continuous wave beacon technology works to render contraband cell phones completely unusable, and (3) how the FCC could facilitate a voluntary technological standard in a very short amount of time.
